CarDAQ-Pro, the Ultimate Companion Tool for Vehicle Diagnostics

Already have a great scanner? CarDAQ-Pro completes it.

Get the rest of diagnostics. From module programming to advanced calibrations, CarDAQ-Pro bridges the gap between everyday scan tool functions and dealer-level capabilities.

CarDAQ-Pro is the most validated J2534 device on the market, supporting a wide range of OEM software packages like Ford FDRS, GM SPS, BMW ISTA, FCA WiTech 2.0 and Toyota GTS.

- OEM Programming & Diagnostic Functions
- J2534-1 & J2534-2 Compliant
- Live ADAS Calibration Support
- Live Factory-Trained Support (asTech 360)
- Remote Programming Services (RAP)
- Work Alongside Your Existing Scan Tools
